

Play N Learn is in the **Discovery Room** on **Thursdays** from **9:30AM** until **11:00AM**

All families are welcome to join in the fun! Bring your little ones to engage in large motor skills, free play, snack, story and art!

The Family Resources Center would like to say thank you to the Platteville Community Fund for their support! With this grant the Discovery Center has purchased a new light table and Shine A Light Books. All are welcome to come enjoy them with us!

"Families need families. Parents need to be parented. Grandparents, aunts, and uncles are back in fashion because they are necessary. Stresses on many families are out of proportion to anything two parents can handle."

Dr. Brazelton

Fruit Kabobs

Using a tooth pick, add a grape, slice of banana and a strawberry! Top it off with a mini marshmallow!

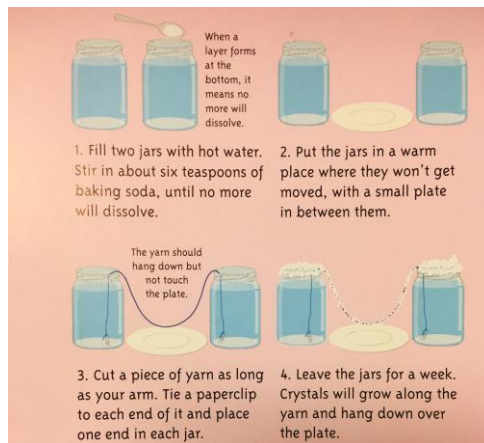

Too little for grapes? Leave it off and just do the banana strawberry and mallow stacked on a plate!

Looking Ahead

- Discovery Center is open during Family Connections open hours & available to use for any kind of meeting or activity.
- Valentine Party at Play N Learn 2/14
- Play N Learn St Patty's Day Party 3/17
- **Chocolate Fest 4/12**
- Easter Activities at Play N Lean 4/18
- Mother's Day Party at Play N Learn 5/12

Hanging Crystals

What's going on?

The yarn soaks up the mixture. When the water evaporates, all that's left are baking soda crystals. The hanging crystals are formed when the mixture starts to drip from the yarn and evaporate. If you're lucky, you might even get crystals that drip onto the plate and form columns.

This science project can be found in Usborne Books and More- 50 Science Things to Make & Do. This book and many others can be used in the Discovery Room or rented out from the lending library at Family Connections.

A great thank you to UWP Animal House and students for joining us with animals at our open house!
